ANGLO-AMERICAN Lawn Grass Seed Mixture

One-quart Package Anglo-American Lawn Grass Seed.

The formula used in the preparation of the Anglo-American mixture is based upon that used in England for making the celebrated lawns of that country. The knowledge of this formula was acquired by ourselves after many years of experiment in Europe and the United States. Grasses in the English formula found unsuitable to the American climate are eliminated and replaced by other more desirable sorts.

Lawn Grass is sometimes quoted by the standard bushel of 14 lbs., which is confusing, and which should be borne in mind when comparing prices, as 14 lbs. of our Lawn Grass Seed would cost but \$2.45.

The Anglo-American Lawn Grass Seed is put up in one quart and four quart carton boxes, $\frac{1}{4}$ bushel, $\frac{1}{2}$ bushel and one bushel canvas bags. Wholesale Price: Per quart, 15c.; 4 quarts, 55c.; $\frac{1}{4}$ bushel of 5 lbs., \$1.00; 1 bushel of 20 lbs., \$3.50. One-half bushel at bushel rates. To dealers who wish to sell our Lawn Grass we will supply it in quart packages at \$10.00 per hundred quarts, but not less than 25 quarts at this rate.

Terms and Manner in Which We Do Business

TERMS. Prices named herein are subject to the following discount: Five per cent. allowed, to be deducted when cash accompanies order. To customers of approved credit, accounts are payable 60 days from date of invoice, except where special prices and terms are arranged for. Grass, Grain, Clover and Bird Seed, Implements, Fertilizers and Insecticides are subject to no discount whatever, but are strictly net cash.

ORDERS are filled promptly upon receipt or a reason given with acknowledgment of same.

PRICES. As it is impossible to predict our exact demand, our prices are made subject to change without notice, and goods being unsold when order reaches us. We, however, carry very large stocks, and if orders reach us in good season, full satisfaction may always be expected.

C. O. D. orders can be sent only by express. Such orders should be accompanied by a remittance in part payment, to guarantee charges.

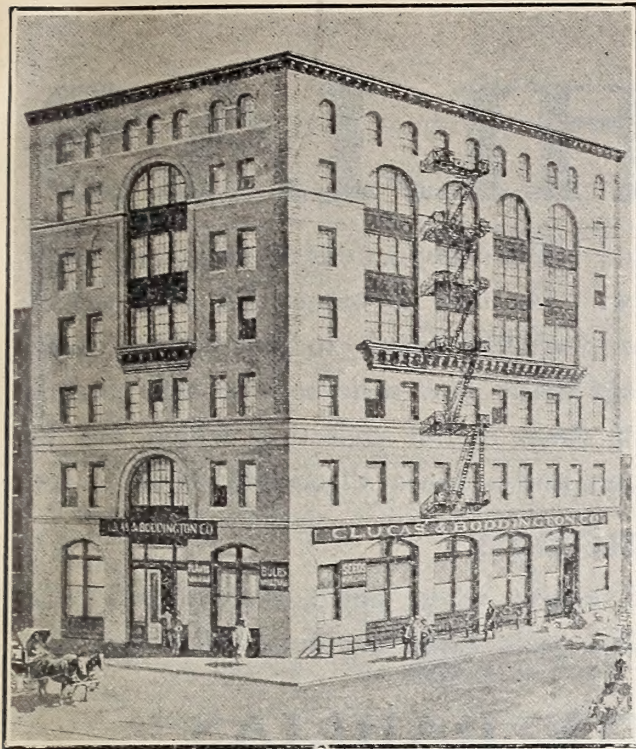

20 per cent. Reduction in Express Rates

Under a recent ruling of the leading express companies, Plants, Bulbs, and Seeds, packed in closed boxes or baskets, will now be carried at the "GENERAL SPECIALS" rate. This means a reduction of 20 per cent. from the regular merchandise rates to all points where no "General Specials" exists. To points where a "General Specials" rate is in force, the companies make a special reduction. Shipments weighing less than 100 lbs. receive the benefit of the rate per 100 lbs., but the minimum charge is 35c. For instance, where the regular merchandise rate is \$4.00 per 100 lbs., a box of plants or bulbs weighing 100 lbs. will be carried for \$3.20, a saving of 80 cents on one shipment.

IMPORTANT. While we exercise the greatest care to have all seeds, bulbs and plants pure and reliable, we do not give any warranty, expressed or implied. If the purchaser does not accept the seeds, bulbs and plants on these terms and conditions, they must be returned at once and the money that has been paid for same will be refunded.

Nothing Succeeds Like Success

Since moving to larger warehouses, little more than a year ago, we have this Spring found it necessary to extend our business by adding a

Nursery and Greenhouse Department

We have purchased upward of thirty acres of the best nursery land in the vicinity of New York, located at Sparkill, Rockland County, N. Y.

Upon this tract, we are now growing a large and varied stock of the most desirable Roses, Flowering Shrubs, Conifers, Ornamental Trees and Herbaceous Plants.

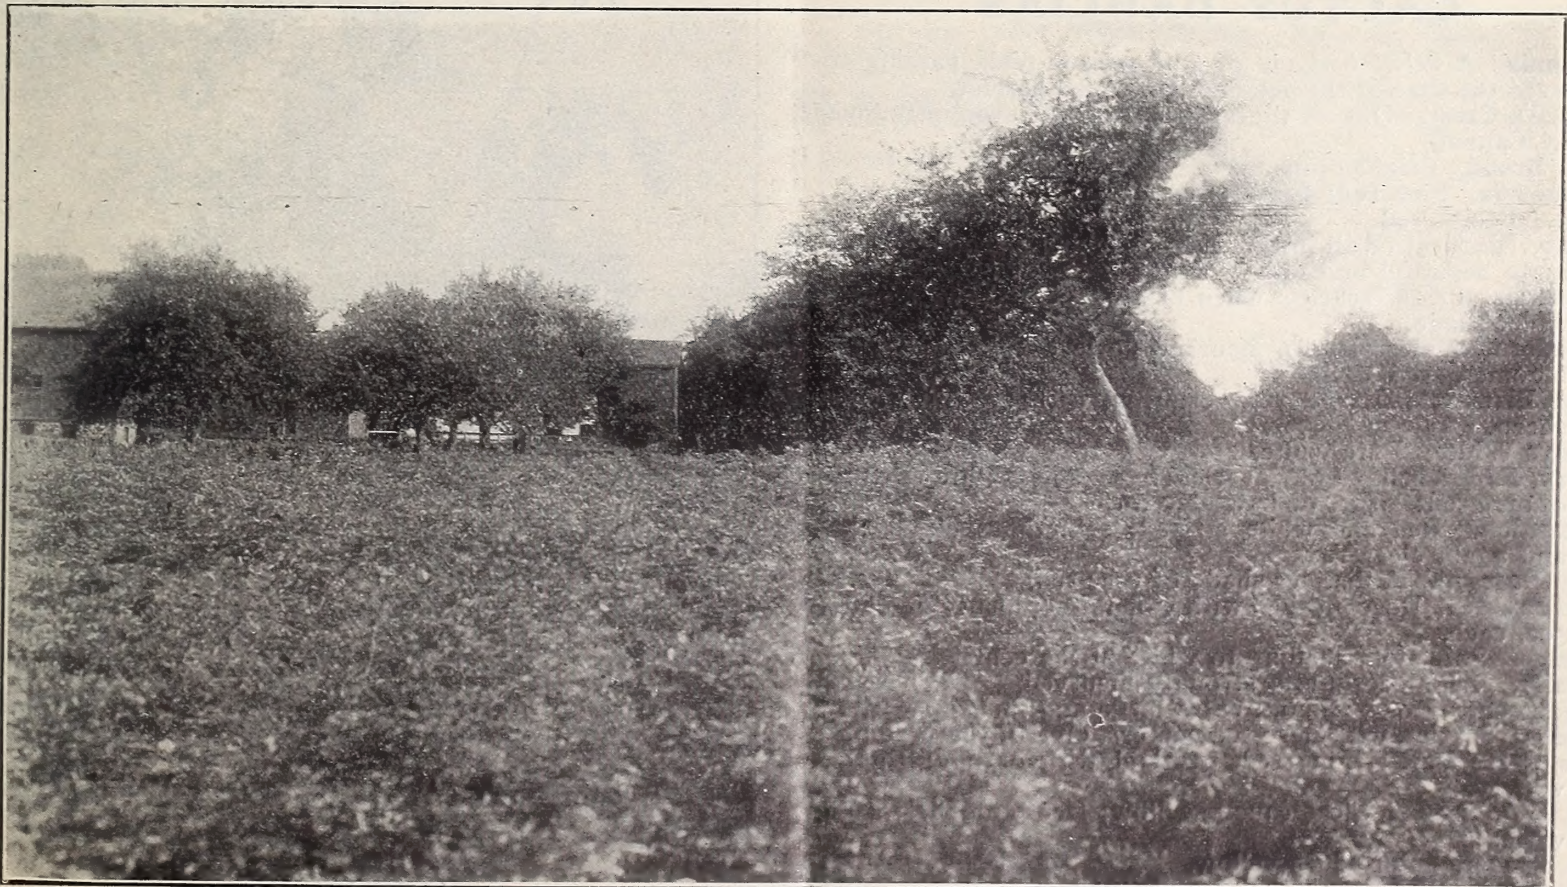

More than fifty thousand Roses, together with large quantities of Peonies, Hardy Phlox, and other herbaceous plants, are now growing there. Bay Trees and Clipped Box and Yews will be among our specialties.

Extract from "The Florists' Exchange," May 9, 1903

Clucas & Boddington Co., New York

This energetic firm of seed, bulb and plant dealers has recently purchased a piece of property at Sparkill, N. Y., for the further development of its constantly increasing business. It is but a year ago when we mentioned the fact that Clucas & Boddington Company had moved from its Fourteenth street store to more commodious warerooms, at the corner of Jane and Greenwich streets. The volume of business done during the past year has shown a great increase over that of previous years, and has practically demonstrated that the move to the present location was not made any too soon. The store and warehouse room is utilized to the fullest capacity, and it would have been next to impossible to have handled the firm's present extensive trade had the change in question not been made. It is some months since the firm decided that a nursery and trial grounds would be a useful adjunct, and at last the concern has been fortunate enough to secure the Worth estate at Sparkill, N. Y. This property consists of upward of thirty acres of choice farm land, with two dwellings and many serviceable outbuildings erected thereon. Some 50,000 gladiolus have already been planted; and a regular nursery for herbaceous plants will be established as fast as time will permit.

Deciduous and evergreen nursery stock will be added when the season for planting such stock arrives. There is a beautiful residence on the estate, and this will be the home of Mr. Clucas and his family after July 1.

NEW AND SCARCE VARIETIES OF DAHLIAS

OUR Collection of Dahlias will be found to contain the very best and latest introductions of merit—not only from a novelty standpoint, but from a commercial point of view. No time or money has been spared in testing all standard and new varieties to eliminate those without distinctive merit to recommend them. The renewed popularity of the Dahlia in recent years has brought out many new sorts both in this country and Europe, and anyone wishing to get the *cream* will find most of them in our collection which can be recommended either for growing in competition or for market purposes, and embrace all classifications.

PRICE OF DORMANT ROOTS

Our prices represent large Dormant Field Roots, in each case, and except where noted, the uniform price for all new and selected varieties on this and the following page: 20c. each, \$2.00 per doz., \$15.00 per 100.

NEW FRENCH COLLARETTE DAHLIAS

An entirely distinct type of single Dahlias. The peculiarity of the type lies in their having a row of short petals around the disc, which form a frill or collar around the center. They are of dwarf, branching habit, and extremely profuse bloomers. We offer plants of the two following varieties at 30c. each, \$3.00 per doz.

Joseph Goujon. Large, orange-red, with light canary-yellow collar, with from ten to twelve petals.

President Viger. The most beautiful and striking of the two. Rich, deep blood-red, shading darker toward the base of the petals, with pure white collar.

New and Selected Varieties CACTUS DAHLIAS

Britannia. A delicate shade of soft salmon-pink, passing toward the base of the petals to brownish apricot.

Cannell's Crest. One of the best red Cactus ever introduced by Cannell.

Capt. Broad. Bright crimson.

Cornucopia. Fine red; English variety.

Cycle. Bright red.

Ebony. Darkest of all in this type; blackish maroon; exceedingly beautiful and odd.

F. Bartels. Bright scarlet; when first opening shows a pretty violet shade.

Floradora. Wine crimson, incurved flower. Good habit, free bloomer. 50c. each.

Furst Bismarck. Large, rosy crimson, with beautiful bluish sheen.

Green's White. Pure white.

Henry F. Michell. Color varies from soft yellow to deep orange-red; large, of irregular form.

Innovation. Red and white striped; sometimes clear white and again clear red.

Lady Pearson. A distinct shade of rose-red.

Lord Brassey. Rose, flushed with violet, long incurving petals. 50c. each.

Loreley. Soft pink, shading to white in the center.

Loyalty. Bright coral-red, strongly incurved.

Magnificent. Rosy salmon; extra large and fine.

Meteor. Scarlet, with fiery red center. One of the very best.

Miss Crata Park. Fine red, overlaid with orange; English variety.

Mrs. J. J. Crowe. Clear canary-yellow; free blooming; a fine variety.

Mrs. Sanders. Pure deep yellow.

Mrs. Scrase Dickerson. Rich golden yellow.

Cactus Dahlias.

Dwarf French or Crozy CANNAS

THE DORMANT ROOTS we offer are large, clean, healthy pieces, containing many eyes, and will stand sub-division, and must not be classed with the shriveled-up small pieces of roots so often sent out. Price of Dormant Roots of any of the following varieties, *except where noted*, 30c. per doz.; \$2.00 per 100; \$15.00 per 1000.

Not less than six of one variety furnished at dozen rates; 20 at 100 rates; 200 at 1000 rates.

Canna Roots we send out—About one-quarter natural size.

ALPHONSE BOUVIER. Deep, rich velvety crimson; a strong grower with bright green foliage, and under fair conditions grows 6 to 7 feet high.

ALSACE. The White Canna; a delicate sulphur-yellow, changing very soon to a creamy white, without spots.

AUSTRIA. A gaint, six feet high, with glorious, golden, lily-like flowers, six to eight inches across.

BEAUTE POITEVINE. A very dark crimson variety, with dark metallic green foliage, and deep rich crimson flowers. A magnificent bloomer. 50c. per doz.; \$3.00 per 100; \$25.00 per 1000.

CHAS. HENDERSON. The most popular crimson Canna yet introduced. A free, continuous bloomer, of uniform compact habit. A variety of rare beauty; flowers very late.

FAIR PERSIAN. A tinted creamy white, covered all over with small rose-colored spots, making a combination that is very attractive. 50c. per doz.; \$3.00 per 100; \$25.00 per 1000.

FLAMINGO. The color is intense and clear crimson; flowers are of large size and borne in immense trusses with great profusion.

FLORENCE VAUGHAN. One of the finest yellow-spotted varieties, heavily marked with scarlet. The flowers are of the largest size, and are borne in large heads. The foliage is massive and of a rich green color. Height, 3½ to 4 feet.

ITALIA. Immense flowers of true orchid form; center brilliant red, petals widely bordered with clear yellow; very striking and handsome; height, 5 to 6 feet; neat habit.

MME. CROZY. The flowers of this popular variety are of a brilliant crimson-scarlet, bordered with golden yellow. Foliage bright green, and very massive. Although of vigorous growth, the plant rarely exceeds 4 feet in height.

MARTHA WASHINGTON. One of the best and most superb pink varieties yet introduced. The flowers are very large and the color pure bright rose; a vigorous grower and a most constant and abundant bloomer. Height, 2½ to 3 feet. 50c. per doz.; \$3.00 per 100; \$25.00 per 1000.

PAUL MARQUANT. A peculiar shade of salmon. Very unique.

PEACHBLOW. A dwarf Canna of recent introduction, and bears fairly large trusses of medium-sized flowers of white changing to rose, with a distinct blotch of pink at the neck of the flower. Green foliage.

PREMIER. Carmine-scarlet. This has proved to be one of the most popular Cannas ever sent out, on account of its fine dwarf habit and the great freedom with which it blooms. It is very dwarf, usually growing not over three feet high. Compact grower and an exceptionally profuse and abundant bloomer. 50c. per doz.; \$3.00 per 100; \$25.00 per 1000.

QUEEN CHARLOTTE. A very popular variety; color bright orange-scarlet, widely edged with golden yellow.

VIRGINIA. One of the finest pinks. 50c. per doz.; \$3.00 per 100; \$25.00 per 1000.

MONT BLANC. The finest White Canna in commerce. Has a vigorous constitution and produces its large white flowers on branching stalks well above the foliage. It blooms early and continuously during the whole season. Its foliage is bright glossy green, very large and so thick and leathery that it is not often injured by rain or wind. 30c. each; \$3.00 per doz.

Partial View of Lucas & Boddington Co.'s 25-acre Canna Fields.

DWARF, FRENCH OR CROZY CANNAS—Continued

A Bed of Shenandoah Cannas, Dark Foliage

SHENANDOAH. A splendid red or bronzed-leaved variety. The foliage is rich ruby red, exquisitely veined and tinted like some rare hot-house plant. It bears fine large trusses of beautiful waxy rose-pink flowers, and, unlike other red-leaved sorts, is a most early and abundant bloomer, highly ornamental, and sure to be in large demand when better known. The flowers are very much larger, and it blooms more freely than "Egandale," which variety it resembles in habit.

Started Roots in Leaf Ready for Planting Out April, May and June

For those who have not facilities for starting the roots prior to planting season—April, May and June—we can offer large plants of most of the above standard kinds, for delivery after April 1st at 50c. per doz., \$3.00 per 100, \$25.00 per 1000. These will be found well-grown large plants, with good roots, and equal to pot plants at very much higher prices.

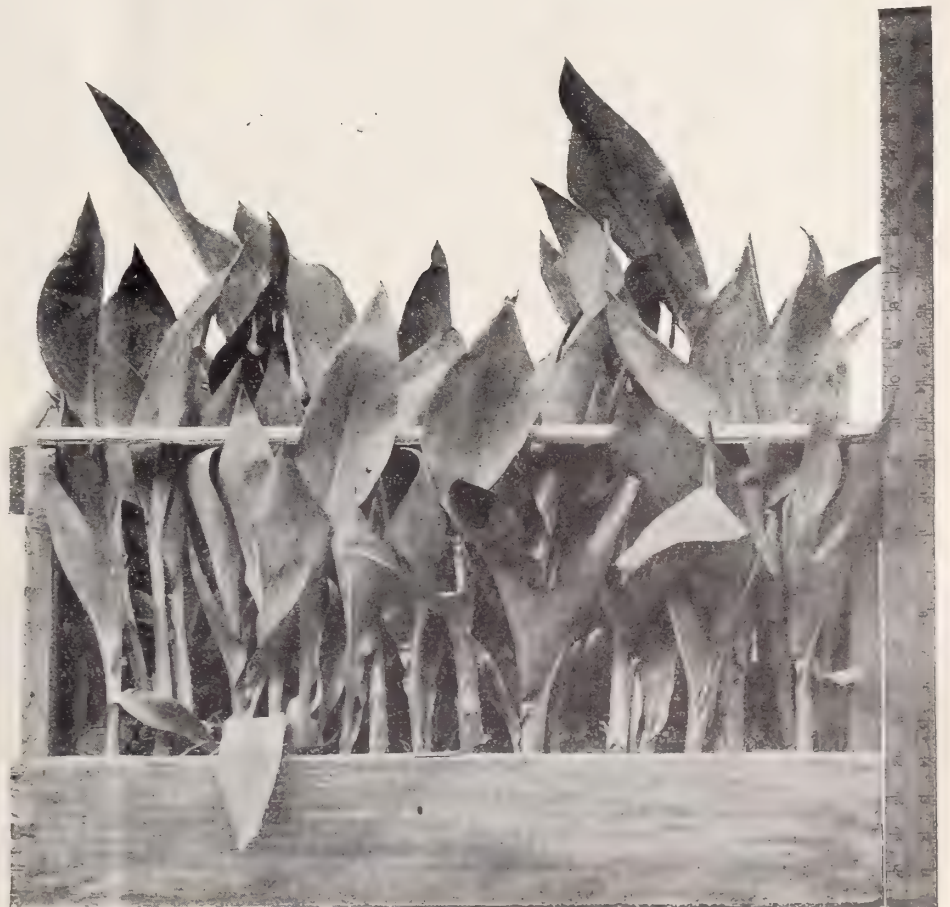

SOUV. D'ANTOINE CROZY. Intense, vivid scarlet, bordered with a narrow band of the deepest golden yellow. It is an exceedingly free bloomer. The heads of bloom are very large and the flowers are retained upon the spike more than an ordinary length of time. About 6 feet high. 50c. per doz.; \$3.00 per 100; \$25.00 per 1000.

Ornamental Foliaged

BLACK BEAUTY. The finest dark-leaved Canna in existence. Foliage is of the deepest crimson bronze, flowers crimson, but not very large. It is a splendid hardy grower, attaining a height of 5 to 6 feet. Extra fine for center of beds, vases, etc. 75c. per doz.; \$5.50 per 100; \$50.00 per 1000.

GRAND ROUGE. A gigantic dark-leaved Canna; has been grown to the height of 8 ft. 11 in., with bright scarlet flowers of fair size. When large masses of dark foliage are required, this Canna can fill a long-felt want; being a fine flowering variety will add to its value. The foliage is simply superb.

ROBUSTA. A giant among Cannas. Grows to a height of 6 to 8 feet, with immense, massive, tropical foliage. A single plant of this variety attracts instant attention.

Box containing 50 Started Canna Roots such as we furnish, ready for planting out, at \$3.00 per 100, \$25.00 per 1000.

GLADIOLUS **AUGUSTA, Pure White***Gladiolus Bulb.*

This is a variety worthy of every florist's attention. It is as white as "Snow White" (having only a small tinge of pink in neck or throat), but in every other way its superior. First size bulbs can be depended upon throwing two or three spikes of bloom; most of the spikes with two and three branches.

The individual flower is very large, has much substance and lays close to the stems when cut, which makes it an excellent variety for shipping to market, as they can be packed closely without injury to the flower.

They spread and open out readily when put in water.

It will stand slow forcing and if the flowers are brought in before outdoor Gladiolus are ready, they command very high prices. We have watched the variety for a number of years, but have only been able in recent years to get a sufficient quantity of bulbs to offer it to the commercial grower at a reasonable price. It is a sure money-maker and no florist will be disappointed who gives it a trial. Most other good whites are unproductive and do not give more than 95 per cent. of bloom, for which reason they do not pay to grow, but the **Augusta** will return upward of 200 per cent. of large, handsome spikes of flowers.

Prices—Selected bulbs: Doz., \$1.00; 100, \$4.00; 1000, \$35.00.

First size bulbs: Doz., 75c.; 100, \$3.00; 1000, \$25.00.

GLADIOLUS IN MIXTURE

Our Gladiolus bulbs are all Eastern grown and are not to be confused with cheap Western stock. Much of the latter contain diseased bulbs and also bulbs of very poor quality. Anyone receiving our bulbs will readily recognize the difference by their large, sound and healthy appearance.

Except where noted, our Gladiolus bulbs are extra selected size, measuring 5 to 8 in. in circumference.

(Special prices on large quantities.)

CALADIUMS (Fancy-Leaved Varieties)

This plant in the past few years has become very much in demand. There are, perhaps, very few plants that are easier of culture and have such a variety of color in their foliage, making them very interesting as well as beautiful. A collection of the best kinds will always sell readily at fancy prices when grown carefully.

Single Tuberous Begonias.

Tuberous Begonias

We have always taken great care in selecting the best strains of this grand Summer-flowering plant by visiting Europe annually whilst they are in bloom, for the purpose of inspecting the crop, of which we have several acres grown, and we are safe in saying that no better or larger flowers, or truer to color and shade, can be had, no matter how much higher price is paid.

Our bulbs are all large, measuring $1\frac{1}{4}$ inches and upward in diameter. We do not handle second size or small Begonia bulbs.

For a time it was generally supposed these could not be grown in the open successfully, but extensive plantings of them in various sections of the country have demonstrated their adaptability for this purpose. Nothing can exceed the brilliancy and richness of their flowers. From the time the first blossom appears until all growth is stopped by frost they are never out of bloom. (See cut.)

The Tuberous Begonias and Gloxinias from bulbs purchased from your firm are the best in every respect I ever grew.

(Signed) R. SCHMID,
Gardener to G. G. HAVAN, Esq., Lenox, Mass.

FLOWER SEEDS

PRIMULA STELLATA (Star Primula)

The Star Primula has attracted much attention and attained a high position in popular favor. It is a most valuable addition to the conservatory, and will be found indispensable for general decorative work. The plants remain in flower for a long time and are very floriferous. When cut, they travel well and remain fresh in water many days. For table adornment they are unsurpassed by any other greenhouse flower at their own period of the year. A few old plants saved for the second year will always prove useful in winter. Each, per trade pkt. of 500 seeds, \$1.00; $\frac{1}{2}$ pkt., 60c.

WHITE STAR. Pure white flowers, produced in abundance, relieved by dark foliage.

PINK STAR. Same as preceding, except in color of flower.

MIXED STAR. Includes various shades of red, pink, lavender, etc.

PRIMULA SINENSIS

(Sow in March for Christmas Flowering)

SNOWBALL. In offering this new pure white primula, we can recommend it as the best and purest white yet introduced. The flowers are very large, of great substance, perfect in shape and very free flowering, being pure white, without any tinge of flesh, so generally found in white primulas, and a big advance on former introductions as to size of bloom and purity. The foliage is very handsome, which adds greatly to its effect as a pot plant.

Per trade pkt. of 500 seeds, \$1.00; $\frac{1}{2}$ pkt., 60c.

GIANT PINK. The finest primula of all, extremely large, and of great substance. The delicate carmine pink color is particularly valuable for indoor decoration, and a specimen plant on the table always wins admiration.

Per trade pkt. of 500 seeds, \$1.00; $\frac{1}{2}$ pkt., 60c.

GIANT BLUE. Produces fine upright trusses of magnificent flowers.

Per trade pkt. of 500 seeds, \$1.00; $\frac{1}{2}$ pkt., 60c.

GIANT ROYAL RED. A bright and attractive primula; new; very good.

Per trade pkt. of 500 seeds, \$1.00; $\frac{1}{2}$ pkt., 60c.

DOUBLE MIXED. A careful selection of all the best Double sorts of white, pink and scarlet.

Per trade pkt., \$1.00; $\frac{1}{2}$ pkt., 60c.

Primula Sinensis.

PURE WHITE FERN-LEAVED. Elegant pure white flowers, having a conspicuous deep brown eye. Very free-flowering, and its fern-leaved foliage adds to their attractiveness.

Per trade pkt. of 500 seeds, \$1.00; $\frac{1}{2}$ pkt., 60c.

FLOWER SEED SPECIALTIES—Continued

Stokesia Cyanea

A rare and beautiful hardy perennial, flowering the first year from seed if sown early.

This plant grows about 24 inches high and produces Cornflower-like, lavender-blue flowers 4 to 5 inches in diameter, from early in July until late in October. It is of easiest culture, succeeding in any open, sunny position. Showy for garden decoration and an excellent cut flower.

Trade pkt. 25c, per oz. \$2.00.

For plants see page 23

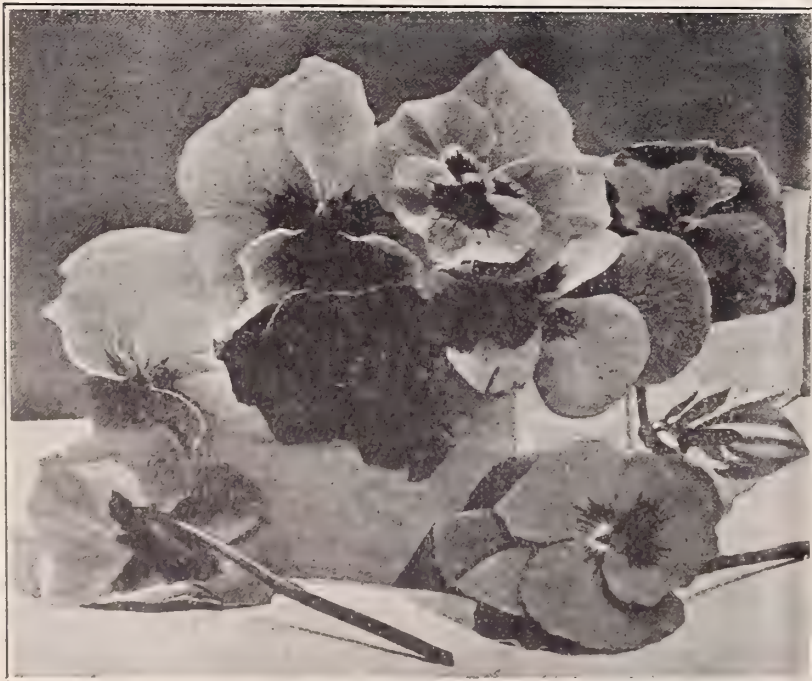

PETUNIA

After years of continual selection and crossing, our strain of double petunias has reached a high standard of excellence, and may be confidently relied on to produce from 40 to 50 per cent. of double flowers of exquisite beauty and great size and the blossoms that come single will be of the grandiflora type. The smallest seedlings should always be pricked out, as they are most likely to produce the finest double flowers.

DOUBLE SUPERB Mixed. One of the finest strains of petunia in existence. The double flowers are very large, full and beautifully formed, having the edges of the petals elegantly fringed. Per trade pkt. of 250 seeds 50c., retail pkt. 25c.

SINGLE SUPERB Mixed. Exceedingly large and handsome free-flowering varieties; brilliant and effective in beds and pots. Per trade pkt. of 1000 seeds 50c., retail pkt. 25c.

For other sorts see page 39.

Pansy—Choice American.

ASPARAGUS PLUMOSUS NANUS SEED

(ASPARAGUS FERN)

WE ARE HEADQUARTERS

No plant in recent years has become more useful for decorative work than this. It has superseded many of its predecessors, driving them almost out of use. It is found equally useful for bouquets, festooning, and fern dishes. Good seed is always difficult to procure from the fact that very few growers allow any quantity of their fronds to stand uncut for seed purposes.

The seed we offer is all grown under glass and is the pure Plumosus Nanus which germinates freely, producing large plants quickly. Price, new crop seed, per 100 \$1.00, 250 seeds for \$2.00, \$7.50 per 1000; 500 seeds at 1000 rate. 5000 seeds for \$35.00; 10,000 seeds for \$65.00

Cineraria Stellata

(STAR CINERARIA)

A favorite wherever grown. The plants make a most effective display when grouped in the greenhouse or conservatory; they are also useful for cutting; the sprays last a long time in water and admit of the most charming arrangements in vases with maiden-hair fern or other ornamental foliage. Per trade pkt. of 500 seeds, \$1.00; ½ pkt., 60c.

Cyclamen Persicum Giganteum

AIGBURTH STRAIN

Never before have we sent out any new strain of seed that has given more universal satisfaction, and elicited more deserving complimentary comment from our customers than has our Cyclamen.

Some years ago, when visiting England, our attention was first brought to some choice prize-winning plants, since which time we have secured all seed saved by these growers from their show specimens, and any florist wanting a truly reliable strain that may be depended upon for form, color and size will not be disappointed by sowing our seed.

This magnificent strain of Cyclamen produces flowers of extraordinary size and substance. The leaves are proportionally large and very beautifully marked with silver gray. At every horticultural show where these flowers are exhibited they never fail to attract admiring crowds.

Cineraria Stellata.

Alba Perfecta, pure white, very large.

Aigburth Crimson, rich self crimson.

Crimson King, splendid crimson.

Charming Bride, pure white.

Giganteum, pure white, tipped rose.

Purple King, intense purple crimson.

Retail pkt., 25c.; 100 seeds, \$1.25; 1000 seeds, \$10.00.

Calceolaria Perfection

Profusion of bloom, large and well-formed flowers, diversity and splendor of coloring, combined with a dwarf and vigorous habit, are the characteristics which have secured the supremacy of this magnificent strain of Calceolaria. Per packet of about 1000 seeds, \$1.00; retail pkt., 25c.

Cineraria

HYBRIDA

A beautiful class of plants for Spring decoration of the window or conservatory; can also be planted out in Summer. The flowers measure 2 to 3 inches across, are of white, blue, violet and crimson shades; usually two or more colors are shown in one flower, covering the plant with a sheet of bloom.

Grandiflora, Tall. Choicest hybrids, mixed, prize varieties. Per trade pkt. of 500 seeds, \$1.00; retail pkt., 25c.

Grandiflora, Dwarf. Large flowering, splendid mixed. Per trade pkt. of 500 seeds, \$1.00; retail pkt., 25c.

contrast to other varieties. Height, 18 inches. **Scarlet, White, Purple, Pink, Lavender** or mixed
VICTORIA MISS ROOSEVELT. Clear primrose tint, passing to flesh color; a striking and desirable novelty

SALVIA

BONFIRE (Clara Bedman). The freest blooming and one of the finest Salvias yet introduced. Very compact and dwarf, growing about two feet high. Its erect spikes of flowers of dazzling scarlet stand clear above the dark green foliage, and completely cover the plant. There are often 200 spikes to the plant, each spike bearing from 20 to 30 flowers. Per trade pkt. 25c., oz. \$2.25.

SPLENDENS. Per trade pkt. 15c., oz. \$1.25.

STOCKS

BEAUTY OF NICE. A new autumn and winter-flowering Stock of robust, rapid growth, 2 to 2½ feet high, commencing to flower in from 10 to 12 weeks from time of sowing, and continuing to flower for months; unusually large double flowers on spikes 8 to 12 inches long. Color exquisite flesh pink; very fragrant. Per ½ pkt. 25c., per pkt. 50c.

VERBENA

Our stock of Mammoth Verbena Seed is the famous Fordhook strain, which has proven to be superior to any other sent out. It produces uniformly magnificent trusses

of Giant Flowers of all colors found in this plant. Individual blossoms will cover a quarter dollar, and frequently larger. Our seed is new 1903 crop.

MAMMOTH FORDHOOK. All colors, **White, Pink and Scarlet,** separate colors. Each, per trade pkt. 25c., oz. \$1.50.

NOVELTIES AND SPECIALTIES IN Garden and Vegetable Seeds **BEET**

DARK-LEAVED GLOBE. (The Dark Fleshed Round Beet.)

For an early crop, the value of this handsome beet deserves to be grown in every garden, both for its admirable shape and high quality as a vegetable. The form, which is as round as a Snowball Turnip, distinguishes this variety from the Egyptian Turnip-Rooted Beet.

This novelty has not only a dark leaf like the best decorative strains, but is equal in the color of the flesh and skin to the best types.

Retail pkt. 25c. ea. Trade \$1.50 per doz. pkts.

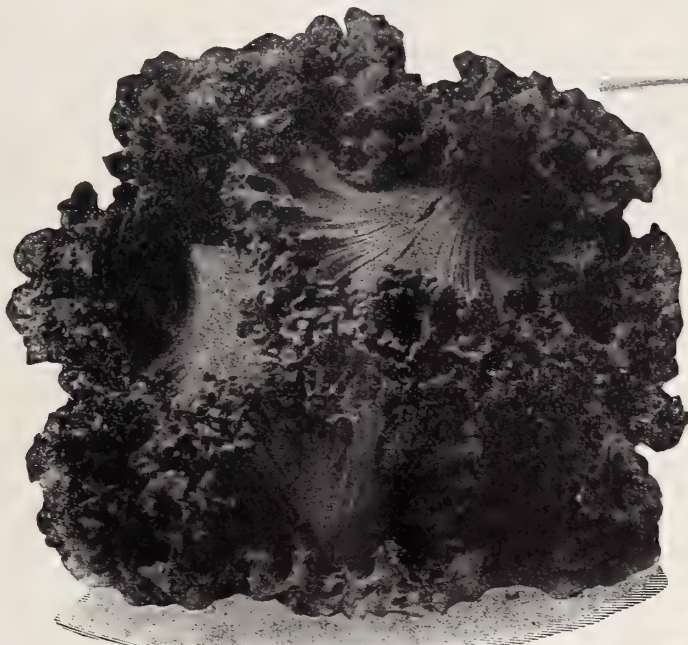

Dark-Leaved Globe Beet.

EMERALD ISLE KALE

**THE FINEST KALE IN THE
WORLD**

This is really the handsomest Kale that has come under our notice and is entirely distinct from other strains. The closely curled, handsome leaves are most attractive. A fine exhibition plant of medium height.

Retail per pkt. 15c. Trade per doz. pkts., \$1.00.

Asparagus or Hearting Kale.

Asparagus or Hearting KALE

This is quite a delicious vegetable and partakes of the nature and appearance combined of a Kale and a Cabbage. The outer leaves resemble a kale and the heart that of a cabbage, while the delicately flavored mid-ribs of the leaves are as tender as asparagus. It is very dwarf in habit, perfectly hardy, and a most useful winter vegetable.

Retail per pkt. 25c. Trade \$1.50 per doz.

LETTUCE

Eclipse Cos, or Romaine

A perfectly distinct variety. It is the dwarfest Cos Lettuce, and produces a firm crisp heart quicker than other sorts. Moreover, it is the most self-folding variety. These three characteristics will ensure its demand for early use, whether in the gentleman's garden or for market work. In color, it resembles the Paris White, but is somewhat greener.

Retail pkt. 15c. Wholesale \$1.00 per doz. pkts.

Emerald Isle Kale

Eclipse Cos, or Romaine Lettuce

MARROW PARSNIP

This admirable Parsnip will become a favorite. It is not quite so large as Hollow Crown, but is more perfect in form, of the finest quality, with a beautifully clear and smooth skin. This is, no doubt, the best Parsnip in existence.

Retail, 15c. per pkt.; per oz. 25c.;
 $\frac{1}{4}$ lb. 75c.; per lb. \$2.50.

Improved Snowball Cauliflower.

upon our strain, which is grown and selected especially for us by one of the most reliable growers in Europe.

It is equally useful for early or late use, and we believe we have succeeded in securing a very much improved type of this standard sort. Retail, per pkt., 25c.; Trade, \$1.50 per doz.; or \$2.50 per oz.

Improved Snowball Cauliflower

Our seed stock of this well-known Cauliflower is grown from selected specimens only, and anyone wanting a really choice stock, sure to produce large white, close heads, can depend

Shirbeck Favorite Brussels Sprouts

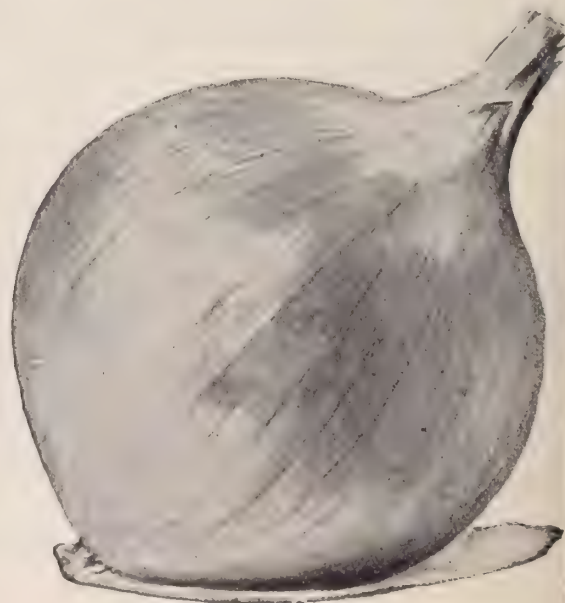

Shirbeck Favorite.

The growth is robust, the plants very hardy and the stems are covered with compact, globular sprouts of excellent flavor. The finest variety in existence. Seed saved only from well developed specimens.

Retail, per pkt., 15c.; Trade, \$1.00 per doz. pkts.

Ailsa Craig ONION

A most important novelty in Onions. Unrivalled for perfection of form, combined with size and weight; pale yellow in color. In competition with all other varieties, Ailsa Craig has won a series of important prizes absolutely without a parallel. Retail, per pkt., 25c. Trade, \$1.50 per doz.

Ailsa Craig Onion.

Marrow Parsnip.

Extra Early "Manxman" Swede

OR RUTA BAGA TURNIP

For Early Market For table use it comes in at a time when vegetables are scarce, and from its delicate and mild flavor, tender and juicy flesh and complete absence from coarseness, woody fibre and the usual offensive odor from other turnips when boiling, as a table vegetable it commands unusually high prices. Growers commenced shipping in June, from seed sown in spring, obtaining very high prices.

As a Feeding Turnip Owing to its particularly mild and delicate properties, it does not affect the flavor of the milk; and from its richness in sugar matter and exceptionally high qualities as a Feeding Turnip, it is, no doubt, destined to become the leading Turnip among breeders and stock raisers.

Analysis

"I have received the Marvelous Specimens of Swedes which I cut up for analysis. The juice contained 1.3 per cent. of Sugar, which is a very high percentage for a Swede."—
DR. GUSTAF SHACK-SOMMER, London.

As a Cropper

Handsome, shapely bulbs of very large size, solid and compact in habit and free from side shoots; it is one of the heaviest cropping turnips in cultivation. Per pkt., 10c; per oz., 25c; per ¼ lb., 75c.; per lb., \$2.50.

PEA

KING EDWARD VII.

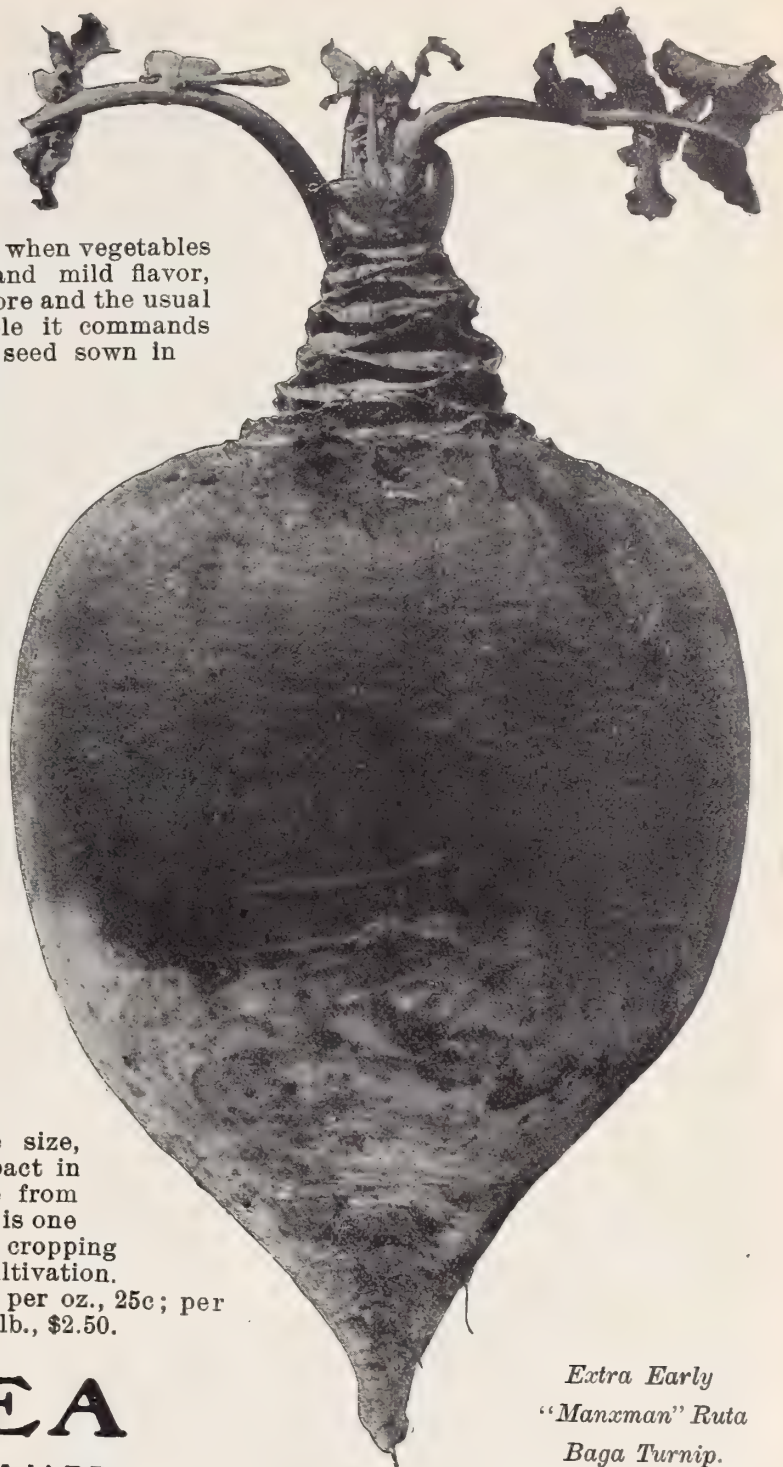

A grand dwarf new early Pea of extraordinary productiveness. The pods are in pairs, resemble Stratagem in color and size, long, slightly curved, rich dark green, and are remarkably well filled with 8 to 10 very large, deliciously flavored peas. We consider this one of the finest dwarf early peas, and the best yet introduced. Per pkt. (about 1 gill), 25c.; per pint, \$1.00; per qt. \$1.50.

CABBAGE

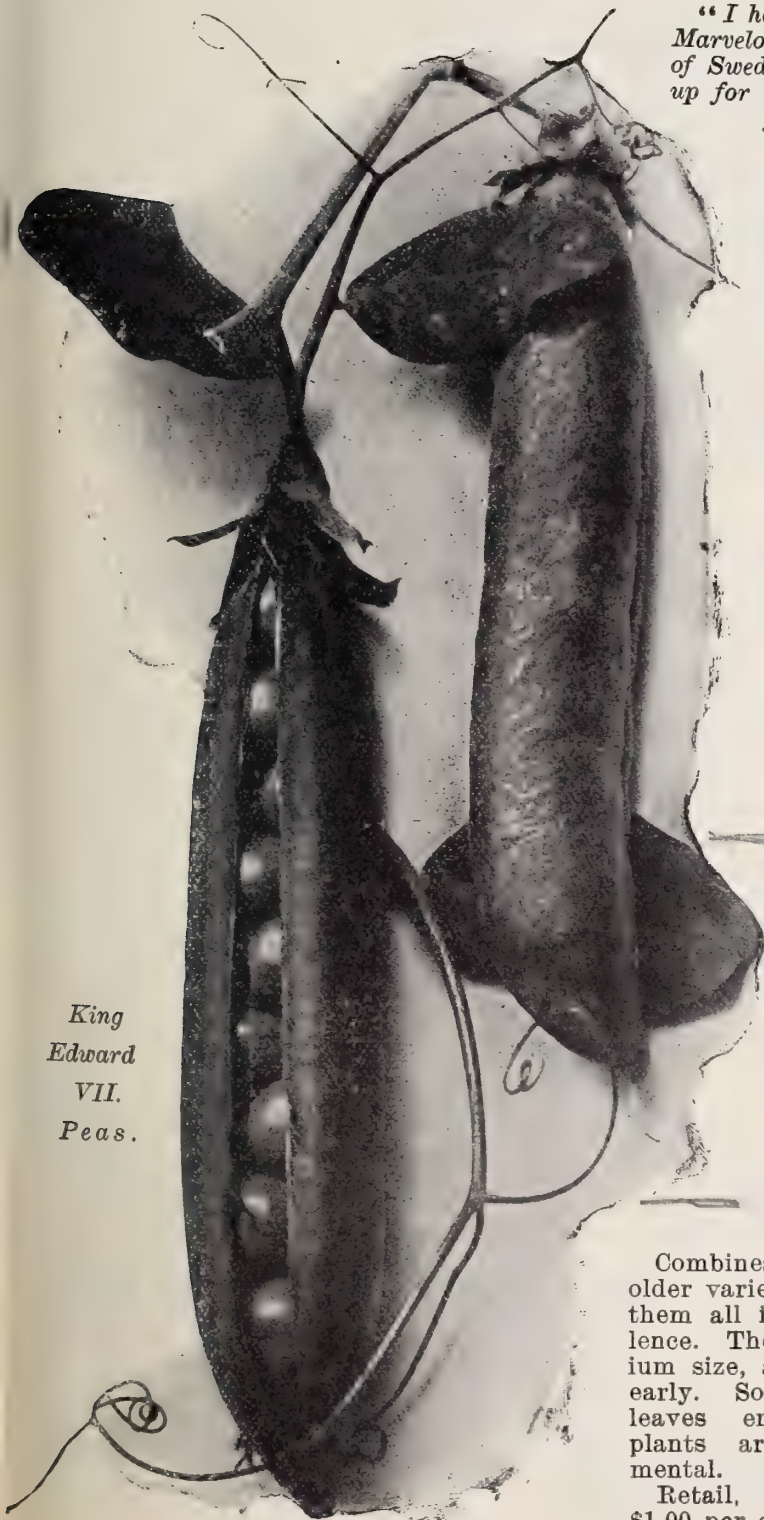

Perfection Savoy

Combines the best points of older varieties, but surpasses them all in degree of excellence. The heads are of medium size, and mature rather early. So beautiful are the leaves embossed that the plants are distinctly ornamental.

Retail, pkt., 15c. Trade, \$1.00 per doz. pkts.

SPECIALTIES IN PLANTS

Begonias Gloire De Lorraine

By permission of "Country Life in America"

Asparagus Plumosus Nanus

BEGONIA GLOIRE DE LORRAINE

WE ARE HEADQUARTERS FOR THIS STERLING PLANT

This is decidedly one of the most beautiful and profitable plants introduced in many years. It attains a height of 15 to 18 inches, bears pea-green foliage, and is fairly smothered with a profusion of soft pink flowers. It is naturally of compact bushy form, and blossoms continuously from October to April, making an ideal plant for Christmas decoration. No establishment, large or small, is complete without this Begonia.

March, April and May Delivery

Of 2½ inch pot plants, carried over from last year.

The advantages of this stock over the newly rooted plants will be readily recognized by the live florist.

It is certain to produce large and valuable plants much earlier than new stock, as it is already established ready for a shift, making plants before the new can be propagated. This plant does not commence growing until April, which is the very earliest it can be rooted, hence the impossibility of furnishing newly established plants before June.

Price of 2½ inch pot plants, propagated and carried over from Fall 1903:
Per doz. \$4.50, per 100 \$30.00, per 1000 \$250.00.

Plants, 2¼ inch pots for June delivery.

**Per 1000 \$140.00, per 100 \$15.00,
per doz. \$2.00.**

Asparagus Plumosus Nanus Plants

Large seedling plants from the seed bed; useful for filling Fern pans, growing on to sell as pot plants, or planting out for strings. Strong transplanted plants, ready in May, suitable for 3-inch pots, \$3.00 per 100; \$25.00 per 1000.

SEED, NEW CROP. \$1.00 per 100; \$7.50 per 1000.

COLLECTED ORCHIDS

ONCIDIUM VARICOSUM ROGERSII.

This Orchid is undoubtedly one of the most profitable commercial varieties grown. It throws 3-foot stems, bearing as many as 170 blossoms of a rich, golden yellow, 2 inches and over in diameter, and can be successfully grown either on blocks of wood, in pots or in baskets, and flowers in January and February in a night temperature of 55 to 60 degrees.

The plants we offer will average two to three and more leads; five to ten bulbs, many with foliage. \$1.75 each; \$18.00 per doz.; \$125.00 per 100.

CATTLEYA TRIANAE.

Rosy mauve flowers, flowering in mid-winter, per case of 30 to 50 plants, \$90.00.

Oncidium Varicosum Rogersii.

CATTLEYA HARRISONIAE.

Beautiful rose color, lip slightly tinged with yellow, flower spikes nearly two feet long. A very free blooming variety. \$1.75 each; \$18.00 per doz.; \$125.00 per 1000.

CATTLEYA LABIATA.

Rosy mauve flowers blooming in autumn. Per case of 30 to 50 plants, \$90.00.

CATTLEYA LABIATA WARNERI.

Somewhat similar to C. labiata, but a much improved type. \$2.00 each; \$21.00 per doz.; \$150.00 per 100.

CATTLEYA BOWRINGEANA (AUTUMNALIS).

Beautiful deep rose mauve flowers, sulphur yellow throat, throwing from five to thirty flowers on strong stems about one foot long. \$2.00 each; \$21.00 per doz.; \$150.00 per 100.

Stokesia Cyanea, or Cornflower Aster

SOLANUM WENDLANDII.

A magnificent rapid growing and free-flowering Solanum. Color, delicate heavenly blue, used largely in Lenox, Mass., and other summer resorts as a veranda plant; also fine for bedding.

Plants in small pots in winter will fill an 8-inch pot by July and be in full bloom.

Strong plants from 2 1/4-inch pots, \$15.00 per 100.

" " " 4 " 30.00 "

STOKESIA CYANEA, Or CORNFLOWER ASTER.

A hardy bedding plant that will have an unprecedented demand. Grows from 18 to 24 inches high, and produces Centaurea-like lavender blue flowers from early in July until late in October, even after frost has destroyed nearly all other out-door flowers. It is of easiest culture, succeeding in any open, sunny position. They enjoy plenty of moisture, but in the North, precaution should be taken to prevent water and ice covering them in winter.

Strong field-grown clumps, \$1.00 per doz.; \$8.00 per 100; \$75.00 per 1000.

ROSES

SELECTED LARGE TWO-YEAR-OLD BUSHES; LOW BUDDED

DORMANT ROSES

Having no soil on the roots and being dormant, they are of little weight and can be sent cheaply by freight or express. We can supply these from November to April. The great value of budded Roses lies in the fact that they produce better flowers and make stronger plants in a shorter period under some conditions than those grown from cuttings.

There being also a demand for OWN ROOT ROSES, we have a considerable quantity of the leading varieties growing in our Nurseries.

Varieties marked (*) we can supply upon their own roots. Our Roses are made up in bundles of 5 each.

- Abel Carriere. Crimson, bright center.
- Alfred Colomb. Carmine crimson; a grand rose in every way.
- *Anna de Diesbach. Bright carmine.
- Anna Alexieff. Rosy pink, large flower.
- Ball of Snow (Boule de Neige). Large, pure white, globular flowers.
- *Baron de Bonstetten. Blackish crimson, with vivid red shadings.
- Baroness Rothschild. An exquisite shade of satiny pink.
- Capt. Christy. Delicate flesh color, deepening toward the center.
- Cheshunt Hybrid. Red shaded violet.
- Coquette des Alpes. White, tinged with blush, medium-sized flower, semi-cupped in form; a fine variety.
- Duke of Connaught. Large rosy crimson.
- Duke of Edinburgh. Bright vermilion, extra large and full; a distinct and splendid variety.
- Duke of Teck. Bright crimson.
- Eugene Verdier. Superb flower, crimson violet.
- Fisher Holmes. Finely shaped flowers, dark velvety crimson.
- Gloire de Margottin. Dazzling red.
- *Gen. Jacqueminot. Brilliant crimson; the most popular rose.
- *Gen. Washington. An old garden favorite, red, shaded crimson and carmine, large, full and flat.
- Geant des Batailles. Deep, fiery crimson.
- *John Hopper. Bright rose, with carmine center, large and full; esteemed by all who grow it as of the highest order.
- *La France. Peach-blossom pink, the model garden rose; blooms all summer.
- Mabel Morrison. Pure white, large, massive, perfectly formed flowers.
- Mme. Charles Wood. Bright carmine, full and free.
- Margaret Dickson. White, with pale flesh center; extra large flowers, of fine substance; strong, vigorous growth.
- Marshall P. Wilder. Cherry rose and carmine.
- *Magna Charta. Dark pink; one of the easiest roses to grow.
- *Mme. Gabriel Luizet. Light, satiny pink; an attractive sort.
- *Mrs. John Laing. Rich, satiny, pink, delicious fragrance; blooms constantly.
- Pæonia. Very large red.
- *Paul Neyron. Flowers 5 inches across; color lovely dark pink.
- Perle des Blanches. White.
- Persian Yellow. Hardy yellow rose; best of its color.
- *Prince Camille de Rohan. Dark crimson maroon, almost black.
- *Ulrich Brunner. Cherry red; a grand rose; very free blooming.

PRICES OF ABOVE: Dormant plants grafted, purchaser's selection, \$100.00 per 1000; \$11.00 per 100; 65c. for bundle of 5. Varieties on own roots, 75c. for 5; \$13.00 per 100. No less than 5 of any one variety sold.

HYBRID TEA AND OTHER DORMANT ROSES

Every florist should plant a quantity of these roses outdoors for summer flowering. The flowers command high prices in the summer months, when greenhouse roses are out of the market. For this purpose we strongly recommend the Maman Cochet as one of the best summer flowering roses to date, and it pleases every one.

New Hardy Rose SOLEIL D'OR (Golden Sun)

A cross between the Persian Yellow and the hybrid perpetual Antoine Ducher. It retains considerable of the character of Persian Yellow, the bark of the wood being reddish, the thorns very fine; the foliage more ample, of a beautiful green and close together. Like Persian Yellow, this variety is perfectly hardy, with large, full, globular flowers, varying in color from gold and orange to reddish gold, shaded with nasturtium red.

Heavy 2-year-old budded plants, 50c. each; \$5.00 per dozen.

La Detroit

CLUCAS & BODDINGTON CO.

In best hardy varieties, 75c. each, 5 for \$3.00, \$37.50 per 100.

ROSA MULTIFLORA JAPONICA

A rose of Japanese origin and considered one of the best by most growers on account of its great beauty and rareness.

The plant is a strong, vigorous grower, flowers profusely in large clusters, with from 20 to 50 flowers in each cluster, covering the plant with dense masses of snowy white blossoms with bright golden stamens. Deliciously fragrant.

Strong plants, 3 to 5 feet, 2-year-old, own roots, each, 25c.; per bundle of 5, \$1.00; per 100, \$18.00.

THE NEW BREITMEYER ROSE

"LA DETROIT" (See Colored Plate)

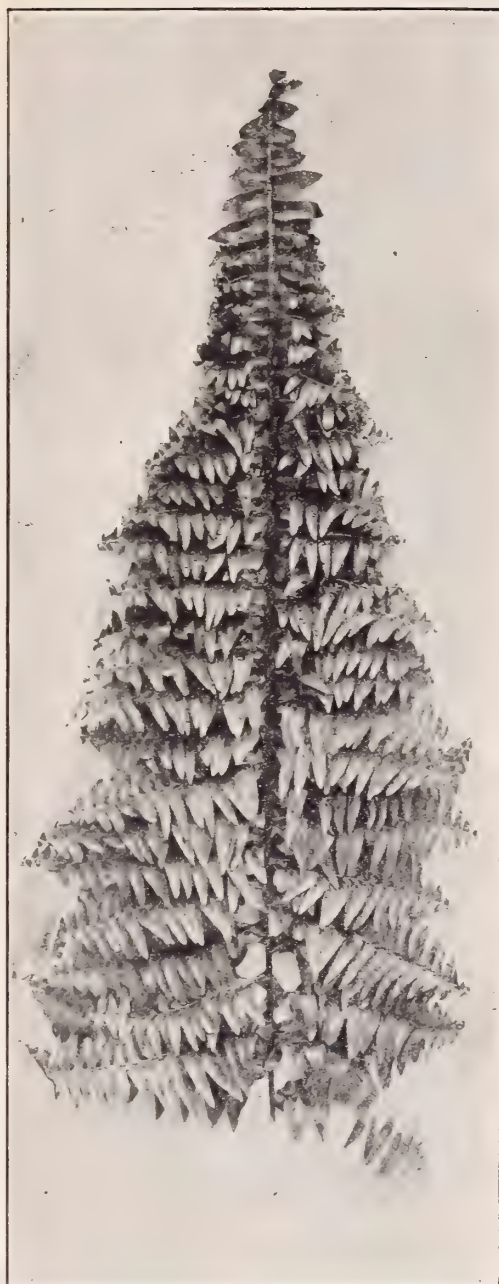

A seedling of Testout and Bridesmaid to be disseminated April, 1904. Color a beautiful shell-pink, shading in the center to a soft rose-pink; the reverse of the outer petal is of a creamy flesh tint, shading to silvery toward the base. The full, open flower discloses a vivid richness of coloring rare and fascinating. Strongly tea-scented; large flower, strong and healthy growth, with a rich, glossy foliage, rampant and vigorous, with a strong tendency to long shoots; very prolific.

Nephrolepis Piersoni

BOSTON FERN

(*NEPHROLEPIS BOSTONIENSIS*)

Few plants are in more universal demand than the Boston Fern, and although several new types have recently been introduced the older variety holds its own in popularity.

Having made special arrangements with a very extensive grower, we can offer well-established, pot-grown plants, with many fronds, for delivery April and May, as follows:

2½ inch pots, established plants, ready for 3 inch, \$3.25 per 100; \$30.00 per 1000.

Small runners from bed, \$3.00 per 100; \$25.00 per 1000.

Large plants from bed, suitable for 6 and 8 in. pots or pans, \$30.00 per 100.

THE NEW PIERSON FERN

(*NEPHROLEPIS PIERSONI*)

This plant possesses the same vigorous growth that is characteristic of the Boston Fern, but is considered by some to be more graceful and beautiful. It is a rapid grower.

Price, for April and May delivery, 2¼-inch pots, \$5.00 per 100; 3-inch pots, \$10.00 per 100; 6-inch pots, very heavy, \$60.00 per 100; 8-inch pots, very heavy, \$1.00 each.—The two latter sizes for present delivery.

Nephrolepis Scottii

NEPHROLEPIS SCOTTII (NEW)

This novelty is a sport of the well-known "Boston Fern." The fronds are somewhat smaller than that of its parent, but are produced in greater profusion, and the plants assume a decorative effect at a much earlier stage than that of any *Nephrolepis*.

Nephrolepis Scottii has attracted much attention and received favorable comment wherever shown. It was awarded a Certificate of Merit by the New York Florists' Club in November, 1903, and a Diploma by the American Institute of Science and Art, at their exhibition held in New York.

It is certain to become a favorite on account of its symmetrical and compact form.

Price: Strong-rooted runners from the bench, with from 3 to 4 leaves, June delivery, \$4.00 per doz.; \$25.00 per 100; \$200.00 per 1000. Strong 6-inch pot plants, ready May 1st, \$2.00 each. Strong 8-inch pans, ready May 1st, \$3.50 each. Strong 10-inch pans, ready May 1st, \$5.00 each.

ADIANTUM CROWEANUM

(The New Introduction in the Maidenhair Fern Family)

The finest Fern ever introduced for cut flower trade. The reputation this Fern has already gained for itself will result in a very large demand. New York florists use no other when this Fern is to be had. Delivery to be made commencing July 1st.

Price: Strong 3-inch pot plants, \$35.00 per 100; in lots of 250 and over, \$25.00 per 100.

FERNS IN VARIETY, from 2-inch pots, \$5.00 per 100; \$40.00 per 1000.

For Fern Spores see last page of cover.

DRACÆNA TERMINALIS

Rooted plants, 2½ inches high, from the cutting bench. These are ready for 3-in. pots and would make nice handsome plants by the fall. April and May delivery.

Price, \$1.00 per doz.; \$6.00 per 100; \$55.00 per 1000.

Adiantum Croweanum.

CARNATIONS

ROOTED CUTTINGS

We are headquarters for Rooted Cuttings of all the best varieties of Carnations. Our list of varieties consists of those found after comparative test to be most worthy of recommendation. We can also furnish other leading varieties not here mentioned at market prices.

Special prices for large quantities on application.

Grown in our greenhouses, we take especial care to ship only strong, healthy, well-rooted cuttings from side shoots which cannot fall to thrive and give satisfaction.

Established Cuttings from Soil and Pots

The past season we met with a considerable demand for cuttings *established in soil and pots*. They are always preferable to cuttings from sand, being much larger plants and make more rapid growth, and can be shipped safely without loss. We can supply established plants from the soil of the general varieties at \$1.25 per 100 above the price charged for cuttings from sand.

CARNATION NOVELTIES

FLAMINGO. The finest Carnation sent out in years. In color, fine scarlet; flowers of fine form and substance, with perfect calyx, never bursts. A good shipper and fine keeper; strong stem. Very fragrant. Flamingo is free, early, continuous; makes no grass, roots easily and makes, when topped, an abundance of strong stem cuttings. Per doz. \$3.00, per 100 \$12.00, per 1000 \$100.00.

ALBATROSS. The purest white, Upright growth, strongest stem known, makes only flowering shoots. A most wonderful keeper and constant bloomer. Flowers of fine form and size, fragrant, and calyx non-bursting. Per doz. \$2.00, per 100 \$10.00, per 1000 \$75.00.

SUNBIRD. The strongest of the yellows. Free, fine color, full form and substance. It is an acquisition and a profitable variety to grow, being from 3 to 3½ inches in diameter. Per doz. \$2.00, per 100 \$10.00, per 1000 \$75.00.

NELSON FISHER. An intense cerise. It is identical in growth and productiveness with Mrs. Thos. W. Lawson. Per doz. \$3.00, per 100 \$12.00, per 1000 \$100.00.

MRS. M. A. PATTEN. The best variegated Carnation to date. Color white, beautifully marked with pink. Per doz. \$3.00, per 100 \$12.00, per 1000 \$100.00.

CRUSADER. A seedling from the two well-known varieties, Lawson and Crane. A good scarlet; form is always perfect; good stem; very robust and quick grower. Average size of bloom 3 to 3½ inches, very full and slightly fringed. Per doz. \$2.50, per 100 \$10.00, per 1000 \$80.00.

RELANCE. The largest and finest white Carnation that has yet been introduced. It is a seedling from Mrs. Higinbotham and the white sport of Lawson, two of the freest bloomers known. Stems are strong and average 20 to 24 inches in length. Per doz. \$2.50, per 100 \$10.00, per 1000 \$80.00.

INDIANAPOLIS. A very bright shade of clear pink with a trace of blue or salmon, and the color holds perfect until the bloom goes to sleep. Per doz. \$3.00, per 100 \$12.00, per 1000 \$100.00.

GENERAL LIST OF STANDARD SORTS

THE QUEEN. The best and most prolific white Carnation to date, bearing a 3 to 3½-inch bloom on a long rigid stem. A fine keeper and shipper. The calyx never bursts, and no poor flowers. We can strongly recommend this variety as the best we know as an all-round commercial variety. Rooted cuttings, per doz. \$1.00, per 100 \$6.00, per 1000 \$50.00.

GOVERNOR WOLCOTT. Among the many white Carnations there are few that produce such fine flowers as this promising variety. Per doz. 50c., per 100 \$3.50, per 1000 \$30.00.

MRS. FRANCES JOOST. Very free bloomer; color deep salmon pink, pleasing and attractive. Per doz. 35c., per 100 \$2.00, per 1000 \$15.00.

The Queen—The best White.

FLORIANA. This is one of the best pink Carnations of recent introduction. 2½ to 3 inches, of fine form. Per doz. 50c., per 100 \$3.00, per 1000 \$25.00.

MRS. THOS. W. LAWSON. Color deep cerise pink. Per doz. 50c., per 100 \$3.00, per 1000 \$25.00.

ESTELLE. A grand scarlet, which can be grown with little headroom, being small in habit. Per doz. 75c., per 100 \$3.50, per 1000 \$30.00.

ENCHANTRESS. Color a very pleasing shade of light pink. Per doz. \$1.00, per 100 \$7.00, per 1000 \$60.00.

MARQUIS. A fine, soft, rich pink, and the high quality of the flower is a strong recommendation. Per doz. 50c., per 100 \$2.50, per 1000 \$20.00.

QUEEN LOUISE. One of the best commercial whites. Per doz. 75c., per 100 \$3.00, per 1000 \$25.00.

BOSTON MARKET. The standard commercial white. A marvel for early, free and continuous blooming. Per doz. 75c., per 100 \$3.50, per 1000 \$30.00.

MRS. GEO. M. BRADT. White, heavily edged and striped with bright scarlet. Per doz. 75c., per 100 \$3.50, per 1000 \$30.00.

G. H. CRANE. One of the most popular scarlets. Per doz. 50c., per 100 \$3.00, per 1000 \$25.00.

MORNING GLORY. Color delicate flesh pink; slightly darker, yet brighter, than the well-known Daybreak. Per doz. 75c., per 100 \$3.00, per 1000 \$25.00.

PROSPERITY. Pure white, overlaid with pink mottles, deepening toward the center. Per doz. 75c., per 100 \$3.50, per 1000 \$30.00.

GOVERNOR ROOSEVELT. Rich, brilliant scarlet, shaded maroon. Per doz. 75c., per 100 \$3.50, per 1000 \$30.00.

Rhododendron Maximum

RHODODENDRON Maximum and Catawbiense and KALMIA LATIFOLIA

The use of collected Rhododendrons and Kalmias for quickly and permanently producing fine landscape effects is now well established and, with reasonable expenditure, there is no other possible way to obtain the results to be had by the use of these magnificent hardy broad-leaved evergreens.

Our supply and advantages being unlimited, we are prepared to accept orders for Fall or Spring delivery, with an assurance of prompt service and satisfactory material that must give good results.

In carload lots we collect sizes from 2 feet to 10 feet in height, with corresponding diameter; the number to the car—say forty or fifty to three or four hundred—depends entirely on the size.

Price, Rhododendron Maximum and Kalmia Latifolia, in carload lots, \$150.00 per carload.

Specimen plants, from \$1.00 to \$2.50 each.

Rhododendron Catawbiense

especially as coming from such favorable local conditions as do ours, transplant with even greater success than do Rhododendron Maximum, which have quite a reputation for the facility with which they can be moved from their native haunts, provided, of course, they are given the common care of shading and watering during the first season.

Various sizes in carload lots, prices according to size of plants required, from \$150.00 to \$500.00 per 100.

Nice specimen plants, good form and well furnished with buds, about 2 ft. high, \$2.00 each; \$20 per doz.

SWEET PEAS

NEW SWEET PEAS

The attention devoted to Sweet Peas has resulted in an extraordinary advance in the size of the flowers and in the accession of new and beautiful shades of color entirely unknown in this flower a few years ago. We need not dwell on the value of Sweet Peas for garden decoration, because they are everywhere appreciated. The forcing of Sweet Peas under glass has also been found very profitable in late years since the introduction of the early dwarf growing types, and for this purpose there is none better than the two varieties here described.

SWEET PEA CHRISTMAS. Not only the earliest to flower in the open ground, but is also the most desirable for forcing under glass for winter cutting, as it is very dwarf in habit, permitting of close planting, and from seed sown the latter part of August flowers can be cut during the holidays. The standards are of a bright rich pink, and the wings nearly pure white; and, whereas the flowers are as large as Extra Early Blanche Ferry, they come into bloom much earlier. This is the florist's ideal Sweet Pea. Price, 35c. per lb., 10c. per $\frac{1}{4}$ lb., 5c. per oz.

MONT BLANC. This is a companion to our Christmas Sweet Pea, of dwarf growth and extremely early flowering habit. It begins to bloom when only twelve inches high, while the plants grown in the open ground seldom attain more than two feet in height. The flowers are a pure paper white, slightly smaller than those of Emily Henderson, but the standard is much broader and more rounded in form, slightly notched in the center. This is decidedly the best white for forcing under glass during the Winter months. Price, 5c. per oz., 10c. per $\frac{1}{4}$ lb., 35c. per lb.

VIRGIN MUSHROOM SPAWN

The merits of this particular make of Mushroom Spawn have only recently come to our attention, and we were so impressed by the many substantial and unsolicited testimonials from large and practical growers of mushrooms for market, that we concluded to bring it before the notice of our customers.

Every brick is made from **Virgin Spawn**, which produces quick and heavy crops, and lasts long in bearing.

A FEW OF THE TESTIMONIALS

The English Mushroom Spawn which I purchased from you this winter has given most excellent results. The mushrooms are of a superior quality, and the spawn quick to develop. Every bed planted with your spawn came up thick with mushrooms. The same cannot be said of other beds.

W. G. GOMERSALL,
Gardener to Winthrop Sargent, Esq.
Fishkill-on-Hudson, N. Y.

Jan. 20, 1903.

Please send me at once 50 bushels of good Spawn, send best you have. The other 50 was very satisfactory.

T. W. CUDMORE.

Will you kindly forward me 20 bushels of Mushroom Spawn as early as convenient. I am glad to say that what I had from you last year turned out first-rate. I had spawn from three other makers beside yourself, but yours was 50 per cent. better than the best of the others.

FERTILIZERS

“Three-Leg” Brand Sheep Manure.

Pulverized and prepared by special process by which the ammonia is retained and all weed seeds killed, making it specially useful either for florists' use or top dressing.

During the months of October and November the sheep are brought in from Dakota and Montana and collected in covered barns and fattened prior to killing. They are fed upon screenings from the grain elevators of the Northwest. The droppings are taken to a drying plant and exposed to a moist heat at of 350 degrees, long enough to kill the germ of any seeds which they may contain, and afterward dried and passed through a 20-mesh sieve, which insures a uniform product.

The article in commerce usually sold elsewhere is ordinarily dried by exposure to the sun and air and allowed to ferment, by which latter process its fertilizing qualities are lost. By the method used in pre-

paring the manure we send out, the ammonia is retained, making it of greater value.

The grain upon which the sheep are fed is rich in nitrogen, and therefore the product we sell has a larger value than what has heretofore been sold under the same name.

Price of our Pulverized Sheep Manure: 2 lbs., 12c.; 10 lbs., 40c.; 100 lb., bag, \$1.50; 150 lb., bag, \$2.00; ton of 2000 lbs., \$25.00.

PALM SEEDS

OUR PALM SEEDS

are collected for us in their various habitats in all parts of the world, and immediately they are in a fit state to pack, shipments are made us, and at once the crop is distributed to our customers. It will be seen, therefore, that those dealing with us receive **Fresh Palm Seeds**, and all florists know the necessity of planting **New** seeds if profitable results are expected. We are the largest Palm Seed handlers on this continent, and our ever increasing orders attest that we have won and retained the confidence of the most critical growers in America.

As nearly all varieties mature at different periods, we have indicated as nearly as possible when each sort is expected to arrive here.

Name of month after varieties is when first delivery of new crop may be expected.
